

GeoScapeSE Worldwide Database (WWDB) Included

- Worldwide terrain database includes 10 meter imagery resolution for CONUS region and 15 meter resolution for the rest of the world
- Utilizes Level 1 DTED elevation data
- Supports drop-in customizable high-resolution imagery, cultural features, and airfield models
- Comes with a Level D high-resolution airfield

Independence IDX 80 Commercial Aviation Level D Capable Training Solution

1759 McCarthy Blvd, Milpitas, Ca 95035, USA

Tremendous value ▪ Tiny footprint ▪ Total performance
System Bundle with Hardware, Software and Visual Content

Affordable Level D Capable Solutions

Equipped with Quantum3D's award-winning MANTIS® software, the Independence® IDX 80 provides exceptional value and performance for small and medium complexity visual systems. IDX 80 is ideal for Fixed-wing Commercial Aviation Level D Training Systems.

The IDX 80 Commercial Aviation Level D bundle includes everything needed to drive a simulator display.

IDX 80 Level D Bundle Includes:

Independence IDX 80 Image Generator

- Microsoft Windows 10 Pro
- Desktop Tower or 4U Rack-mountable
- Chassis: 7.0" W x 26.5" D (170x762x673mm)
- Dual Intel Xeon E5-series 6-core CPU
- 4 NVIDIA Quadro P4000 GPUs (P5000 and P6000 options available with other IDX 80 configurations)
- I/O
 - 2x GigE LAN (host interface + general use)
 - 2x USB 3.0 + 2x USB 2.0
 - 7.1 HD Audio
 - DisplayPort or DVI-I from each GPU
- Storage
 - 2x 500 GB Enterprise-grade SSD's in RAID-1 (OS)
 - 3x 4 TB Enterprise 7200 RPM, in RAID-5 (data)
 - LSI hardware RAID controller w/battery back-up
 - Blu-ray Optical R/W drive
- Power
 - 120-240V Input single-phase, up to 10A
 - 2000W Output, dual redundant power supplies
- Certifications: UL, CSA, CE

MANTIS Image Generator Software

- 64-bit, Native Multichannel Support
- CIGI 3.x Host Interface
- FAA Level D Capable
- 5 Channel System

MANTIS Plug-Ins Included with Bundle

Advanced Weather Plug-In

- 3 dimensional volumetric cloud layer
- Define regionalized weather patterns
- Renders up to 5 volumetric storm clouds with rain squalls and lightning
- Layered fog effect and density
- Cloud Shadows
- City light glow illuminated in clouds

RunwayFX Plug-In (Runway contaminants)

- Facilitates runway conditions including wet, standing water, ice, snow, and sand
- Windblown sand and snow effects
- Reflection on runway lights
- Conditions returned in HAT/HOT/LOS

Global Airports

- Dynamically inserts over 27,000 airfields worldwide

Advanced Ocean Plug-In

- High quality ocean effects, including sun/moon reflection, true 3D waves, shoreline effect, terrain and model reflections
- Shader allows inland water reflections

Shadow Plug-In

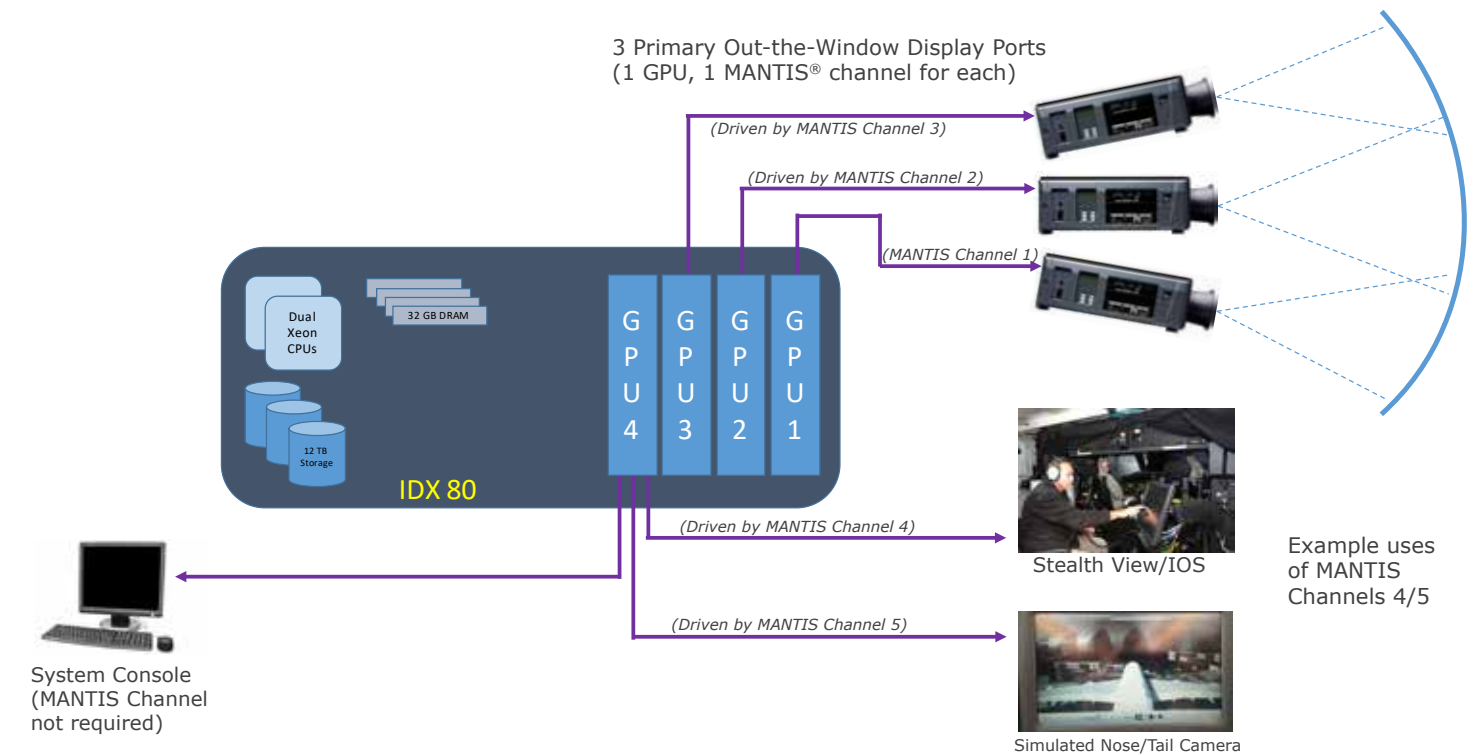

- Generates real-time shadows including full scene shadows

Continuous Model Scaling (CMS)

- CMS offers correction of the rendered size of aircraft and other models in the distance
- Model Scaling will help by correcting the apparent sizes of aircraft seen at a distance (for example when on approach, and looking at aircraft further down the glide slope)

Multithread Mission Functions Processing (MFP)

- MFP utilizes CPU cores to process mission function requests (line-of-sight inquiries, height-above-terrain inquiries, collision detection, etc.) without need for a dedicated MANTIS channel processor (PC node)

Turnkey IG Bundle for Civil/Commercial Fixed-wing Training Applications
